# M7 ADVANCED PERFORMANCE

## ABOUT M7 JAPAN

M7 is a successful and growing company which specializes in creating and distributing world-class automotive products. M7 was founded in 2006 and since then has grown to distribute world-wide. The objective of the brand is to create ultimate high quality performance enhancing automotive products. Since then M7 has pushed forward, developing their products and producing new ones, all the while reflecting customer demand and expectations. The customer's satisfaction and the brand's drive for high quality combine to continually push the boundaries to improve performance and operational efficiency.

The secret and key to the ultimate performance of M7 products is that they are developed and tested by world-class racing drivers and riders under various rigorous conditions, with the focus on racing. The company was founded with the idea to use racing to develop and test the M7 products and that is precisely what we are doing until today. In this way we provide high quality products for wide range of cars and bike.

## TEAM M7

M7 uses racing to test its products. However, that is not the limit of racing in M7. Rather, it is the very lifeblood which drives us forward. We have the spirit of competition and strive for maximum performance. In order to materialize this, M7 is actively involved in the world class cars and bikes racing events named Moto 3, MotoGP and Motocross. We will remain and exist in this industry and will continue team up with several world-renowned racers and riders. This is how we develop and perfect our products to the edge of perfection.

**Advanced Performance Oil**

### RT SYNTHETIC 10W-40 SN-CJ

RT SYNTHETIC 10W-40 SN-CJ is formulated using high quality synthetic oil components. RT engine oil is manufactured to meet requirements of all modern multi valves with or without turbo charges. It provides fuel economy and increases the oil change intervals under normal & extreme operating conditions. It protects cylinder walls, pistons, bearings and valve train components beyond the levels of conventional passenger car motor oils. Recommended for town travels, regular outstation travels or long distance travels, it helps to provide fuel economy.

### RG FULL SYNTHETIC 5W-30 SN-CJ

RG FULL SYNTHETIC 5W-30 SN-CJ is a fully synthetic engine oil incorporating advanced technology to provide excellent low temperature soot dispersion and outstanding high temperature deposit control. It is manufactured to meet requirement of almost all modern multi valves with or without turbo charger, it is for hybrid and diesel engine too. It provides smoother, cooler and quieter engines. Its advanced additive system ensures excellent control over wear due to friction, soot induced wear, corrosion, foaming and provides oxidation stability. This engine oil is manufactured with high safety measure and quality control according to ISO 9001:2008

### RACING FULL SYNTHETIC 15W-50 SN-CJ

RACING FULL SYNTHETIC 15W-50 SN-CJ is a fully synthetic engine oil incorporating advanced technology to provide excellent low temperature soot dispersion and outstanding high temperature deposit control. It is manufactured to meet requirement of almost all modern multi valves with or without turbo charger, it is for hybrid and diesel engine too. It provides smoother, cooler and quieter engines. Its advanced additive system ensures excellent control over wear due to friction, soot induced wear, corrosion, foaming and provides oxidation stability. This engine oil is manufactured with high safety measure and quality control according to ISO 9001:2008

### M7 RS 4T FULL SYNTHETIC 15W-50 SN

M7 RS 4T FULL SYNTHETIC 15W-50 SN meets with API SN/JASO Ma2 specifications. Engineered by M7 Team within special formula which provides excellent protection, cleaner engine and superior clutch and gearbox operation.

### M7 RK 4T SYNTHETIC 10W-40 SN

M7 RK 4T SYNTHETIC 10W-40 SN meets with API SN/JASO Ma2 specifications. Engineered by M7 Team within special formula which provides excellent protection, cleaner engine and superior clutch and gearbox operation.
